

Yuletide Suggestions for The Grown-Ups

Gas Ranges—Cabinet, box, and all other styles. The gift of gifts, affecting the entire household. Give mother one of these "drudge eradicators" and see the joy of Xmas reflected in her glad, beaming countenance.

Gas Irons—make yourself a present of one, then watch the effect on the high cost of living, by ironing three hours continuously, and for only one cent.

Gas Lights—Beautiful fixtures at very low cost. An estimate will surprise you as to cost.

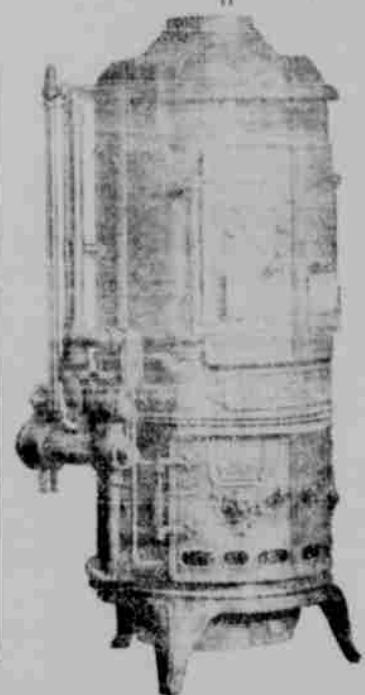

Table Lamps

Beauties, and the light derived from them is almost like daylight. The harmful ultra violet rays, present in other lights, are absent.

Floor Lamps

To see them is to want to have one in your own family circle. Oculists recommend gas lighting. "Happy Days" are stretched by the added happy hours a gas lamp gives.

Gas Water Heaters—in all styles. Hot water as you want it, when you want it, and all you want of it. Quick as a wink, and at a smaller cost than is possible with any other fuel.

Toasters, Cake Griddles, Room Heaters, Etc.—Any of the above articles will reduce the drudgery, and contribute to the comfort, good health, and general welfare of the home. Can one give anything that will be more appreciated?

Following the above suggestions will insure you remaining "Merry" for years.

We are glad to show you, always.
